

An Exclusive Range of Industrial Heaters

WE MANUFACTURE

Water Heaters 

Air Heaters 

Oil Heaters 

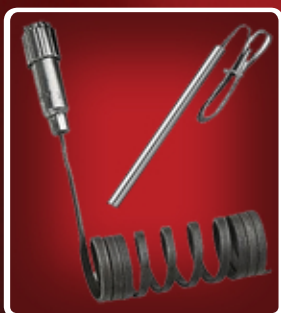

Alkaline Heaters 

Mica & Ceramic Band Heaters 

Cartridge Heaters 

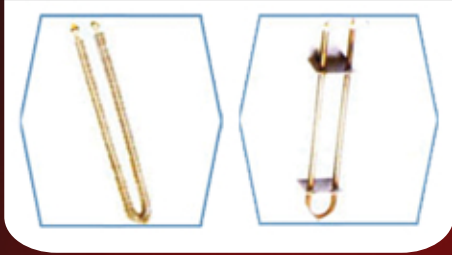

Finned Heaters 

Porcelain Heaters 

INDUSTRIAL HEATERS

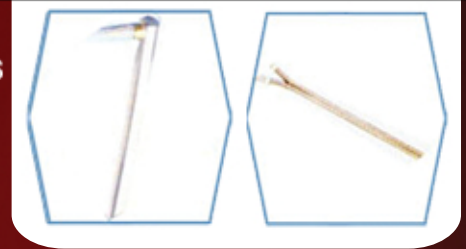

TUBULAR/FINNED AIR HEATER

Tubular Heater are made in S.S. - 304, S.S. -321 and incoloy sheathing to heat air and covered with M.S. and S.S fins for air heating applications like forced air duct, drying ovens, air conditioning systems etc.

Cartridge heaters are designed for use where heat is required in limited space such as dies, Plates, moulds and packaging machinery etc. Cartridge heaters are made in brass, S.S. and incoloy sheathing in plain and 'D' type with low and high-density wattage.

CARTRIDGE HEATER

OIL HEATER

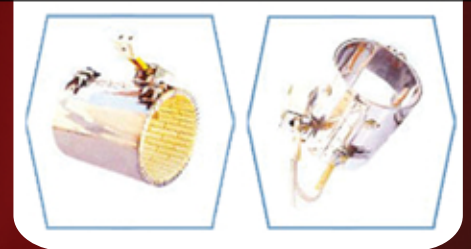

Oil Heater are made in M.S., S.S.-304, S.S.-316 & titanium sheathing, fitted in flanges and standard BSPP screw type sockets to heat water, oil and chemicals, with and without thermostat pocket.

MICA & CERAMIC BAND HEATER

Mica & Ceramic Band Heater are made for proper contact heating on cylindrical surfaces. Band heaters are made in M.S., brass and S.S. sheathing, also made in perforated sheathing for air-cooled application.

both type of heaters also covered with insulated jacket to save energy.

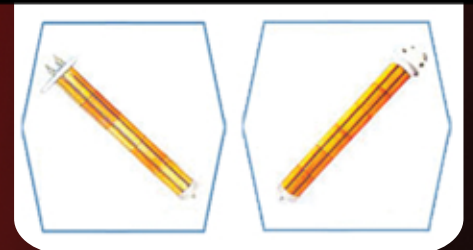

STRIP/STRIP FINNED HEATER

Strip Heaters are made in M.S., brass & S.S. sheathing, insulated with mica and ceramic. Strip heaters are used to heat smooth and flat surface. Strip heaters are also covered with finned for better transmission of heated air in application like forced air ducts, blower units, ovens and dryers etc.

PORCELAIN HEATER

Porcelain Heaters are made with high temperature bearing insulators. Elements in these heaters are exposed partially in air for better transmission of heat. Mostly used in ovens and tanks where draining is not possible to change the heaters.

DOMESTIC HEATERS

INSTANT GEYSER ELEMENT

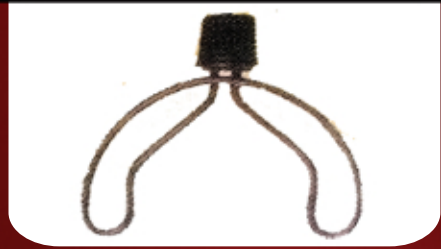

GEYSER ELEMENT

NON/AUTO KETTLE ELEMENT

HALF ROUND BOILER ELEMENT

FULL ROUND BOILER ELEMENT

STERLIZER ELEMENT

BAJAJ/RACOLD TYPE GEYSER ELEMENT

"L" TYPE STERLIZER ELEMENT

WASHING MACHINE ELEMENT

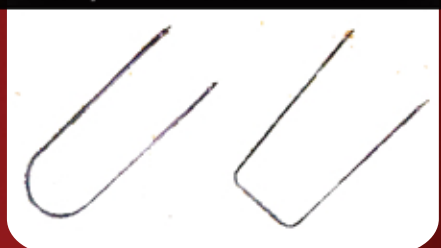

BTH ROD ELEMENT

IMMERSION WATER HEATER

O.T.G/HOT CASE ELEMENT
